

DON'T BE SUCH A *LIBERAL*

If the same standards from the Nuremberg War Crimes Trials were applied, then every post-war American president would have been hanged. ~Noam Chomsky

If voting changed anything, they'd make it illegal.

To hell with presidents. Get some better heroes.

Whether it's Obama's 2,400,000 deported immigrants. Whether it's the 1,000,000 civilians slaughtered by the US government in Southeast Asia in the genocidal Vietnam War, started by Kennedy, escalated by Johnson. Whether it's the murderous campaign of bombings and sanctions on Iraq, that killed hundreds of thousands, overseen by Bill Clinton. Whether it's the complete inaction to make even baby steps towards addressing global warming, which threatens to collapse civilization and kill hundreds of millions over the next century. Whether it's the escalation of the racist system of mass incarceration and police terror known as the War on Drugs, and the complete failure of so-called "social liberals" to support the legalization of drugs necessary to end the War. Whether it's Obama's hilarious reversal on civil liberties and the war on terrorism, overseeing the construction of a vast surveillance apparatus by the NSA, literally more invasive than the Thought Police in 1984, able to read all of your text messages, listen to all of your phone calls, and remotely turn on your laptop's webcam, none of this requiring a judge's warrant; forcing heroic whistleblower Edward Snowden into political exile. Whether it's the global campaign of mostly indiscriminate mass slaughter of noncombatants, euphemistically referred to as "the drone war." Whether it's the near-total capitulation to Wall Street demands for complete economic deregulation and the dismantling of the social safety net: workers, safety, public health, the poor, and the environment be damned.

Whether it's any of that or a million other betrayals, hypocrisies, reversals, or deafening silences by the Democrats who claim to be "progressive", who claim to defend equality, freedom, the little guy, the marginalized, tolerance, diversity; will you, a liberal, ever speak up? Will you ever recognize the liberal camp for what they are? Merely the left one of a bully's two hands, balled into fists to ruthlessly batter the people. Don't continue to compromise. Don't continue to swallow your tongue. Don't continue to moderate yourself, much less everyone else. Don't continue to submit, *fight back!* Let your voice be heard. *Break shit*; make total destroy. This is so far beyond the next election, the next pointless media controversy. You are up against the wall staring in the face of the global murder machine, a system that produces human corpses by the *millions*: fossil fuels, the military-industrial complex, American imperialism, the criminal injustice system, the ruling class, *the Man*. That is who is supposedly your enemy. If you value freedom, equality, and standing up for those who are everyday crushed underfoot—which many days includes you yourself if you'd just pay attention—then you're *not* a liberal. Liberalism means moderating, collaborating, longer chains and bigger cages. Don't collaborate, don't cooperate, don't participate. Refuse to let your government kill and imprison literally millions of people, refuse to watch corporations eradicate Mother Earth's life-sustaining natural systems for next quarter's profit. Sabotage pipelines, fight the police, don't pay your taxes, steal stuff. Pick up the brick, the gun, the pen, and *do something*. Because liberals won't. They've shown us time and time again whose side they're on.
